

Singapore International School, Mumbai

Ready for the world. Ready for the future.

An IB World School

29th August, 2018

To Whom it May Concern;

It is with great pleasure I write this letter of recommendation for Ms. Heather Carreiro. I have worked closely with Heather during the past Academic year. Being the Head of Inclusion, I have collaborated with her on several cases. We have developed an excellent working relationship. In my interactions with her, I have come to understand that she is highly passionate about the well-being of all members of the school community.

As an educator, Heather is always Mindful about the needs of all students. She is proactive in identifying and recognizing the differential learning needs her students in class. She works extensively in accommodating them in her classroom and uses UDL to make her course accessible to all students. She also differentiates her instructions and modifies the curriculum if needed. Her lessons are designed based on the learning styles of her students. Her classes are lively, active, innovative and a supportive environment for all students especially for students with special educational needs.

As a trainer, Heather has been active in sharing her learning with the school community. She has conducted numerous workshops with the teachers and administrators of our school. She has initiated and brought to the table new concepts, innovative ideas and refreshing approaches to existing practices. Her sessions have been energetic, informative and engaging.

In conclusion, Heather will be an asset for any school who is looking to hire a hardworking, enthusiastic and dedicated teacher and leader.

Sincerely,

Arpita Guha
Head of Inclusion
Singapore International School
